## April 15, 2016

Priority Deadline for FAFSA Filing:

- If you haven't completed a FAFSA by this date, you should set up a payment plan before you register for classes.

We will still accept FAFSAs after this date; however, we can't guarantee that you will have a financial aid package in place by the first day of classes on May 18.

## May 2, 2016

Priority Deadline for Financial Aid documents and processing:

- We will still process aid and accept documents after this date; however, your financial aid award may not be available by the first day of classes on May 18. You will need to enter into a payment plan to register for classes.

## May 4, 2016

Early Admission Deadline

- Submission is encouraged by this date to provide time to complete additional enrollment steps, but we will continue to accept applications after this date.

## May 13, 2016

Deadline to accept your financial aid in Web Advisor.

- If you are receiving a student loan, all your steps need to be completed prior to this date.
- All official transcripts must be submitted by this date.
- Life Scholarship and South Carolina Need-Based Grant certification forms must be submitted to financial aid by this date.
- All suspension appeals must be submitted by May 16.

## Payment plan

York Tech offers a convenient payment plan for students who pay out of pocket. Entering a payment plan is also required for students who register late and will begin classes before their financial aid is awarded. The chart to the right shows the amount required for a down payment and the number of remaining payments. Please be aware that there is only one "enroll by" date, May 19. It makes good financial sense to start on the plan early!

Enroll	Down	Payments
May 19	20%	2
